VERSION 1.0 · NOVEMBER 2026

Kuvuna

Brand Guide

Logo, color, typography and messaging

Solutions that grow your business

Logo

Our logo has two parts: the mark, a K built from rounded squares, and the wordmark. Use the navy version on light backgrounds and the Cloud-white version on navy. Pick the version from the grid below.

PRIMARY LOGO

Kuvuna

Solutions that grow your business

Navy squares
The solid base that forms the K.

Teal square
The centre, where everything connects.

Amber square
The spark of growth at the top.

Choose your version

	ON LIGHT BACKGROUNDS	ON NAVY BACKGROUNDS
Logo with tagline Default for covers, websites and documents. Min width 240 px.	Kuvuna Solutions that grow your business	Kuvuna Solutions that grow your business
Logo For small spaces, headers and social banners. Min width 120 px.	Kuvuna	Kuvuna
Icon only For favicons, app icons and profile pictures. Min size 16 px.		
One colour For stamps, embroidery, receipts and anywhere colour is not possible.	Kuvuna	Kuvuna

Clear space

Kuvuna

Keep a margin equal to one square of the mark (the dashed line) free of text, edges and other graphics on every side.

Please don't

- Recolour the squares or swap amber and teal
- Stretch, rotate or outline the mark
- Add shadows, gradients or effects
- Use the navy logo on dark grounds, or the white one on light
- Place the logo on busy photos without a solid panel

Color

Navy and Cloud carry most of every layout. Amber is the main accent for actions and highlights. Teal is the supporting accent for data, success states and secondary highlights. Slate handles body text and captions.

Midnight Navy
#12304A
RGB 18, 48, 74
Text, headers, logo

Amber
#F28C28
RGB 242, 140, 40
Buttons, highlights

Teal
#2E8B7A
RGB 46, 139, 122
Charts, success, accents

Slate
#5B6B7A
RGB 91, 107, 122
Body text, captions

Cloud
#EEF2F6
RGB 238, 242, 246
Backgrounds, panels

Proportion

Roughly 80% Cloud and Navy, then Slate, with amber and teal as small pops. This is a guide, not a rule to measure.

Text pairings and contrast

Contrast ratios are calculated from the hex values. 4.5 or higher passes for normal text. 3 or higher passes only for large text (24 px, or 19 px bold).

Navy on Cloud

12.1 · Passes. Default.

Cloud on Navy

12.1 · Passes. Default.

Slate on Cloud

4.9 · Passes. Body and captions.

Navy on Amber

5.5 · Passes. Use for buttons.

Amber on Navy

5.5 · Passes. Accent text on dark.

White on Teal

4.1 · Large text only. Better than navy on teal (3.3).

Teal on Cloud

3.7 · Large text and icons only.

Amber on Cloud

2.2 · Fails. Never use for text on light grounds.

Typography

One typeface for everything. Poppins is geometric and friendly, and its round forms echo the rounded squares in the mark. It is free, and it is built into Google Docs, Google Slides and Canva, and installs on Word, PowerPoint, Windows, Mac, iOS and Android. Where it can't be installed, use Arial.

PRIMARY TYPEFACE

Aa

Poppins

Regular 400 · Medium 500 · SemiBold 600 · Bold 700

FALLBACK

Aa

Arial

Installed on virtually every device. Use when Poppins is unavailable, such as plain email or older systems.

Logo note. The Kuvuna wordmark is set in Poppins Bold with slightly tightened spacing (-2%). Supply it as outlined artwork (SVG or PNG) rather than typing it, so it looks the same everywhere.

Kuvuna

Messaging

How Kuvuna sounds and what we say. We keep our three areas open on purpose, so we describe what we do for clients, not a fixed list of services.

TAGLINE

Solutions that grow your business

Sits under the logo and closes our materials. Keep it as written, and don't repeat the word "grow" in the headline next to it.

ONE-LINE PITCH

Kuvuna helps businesses reach more customers, build smarter systems, and see what is working.

For bios, introductions and the first line of a proposal.

SHORT DESCRIPTION

Kuvuna is a marketing, technology and growth partner for businesses. We bring the people and tools together to win customers, run things smoothly and scale with confidence, so you can focus on running your business.

For the website "About" section, social bios and directories.

What we do

MARKETING

Reach more customers

Get found, get noticed and get chosen, through content, design and campaigns that stand out.

TECHNOLOGY

Build smarter systems

Tools that save time, cut repeat work and keep customers coming back.

GROWTH

Measure and scale

See what is working, then do more of it with clear numbers behind every decision.

Catch-all line: Something else holding your business back? Talk to us.

How we sound

Clear

Plain words, short sentences. If a business owner would need to ask what it means, we rewrite it.

"We build you a website that brings in enquiries."

Practical

We talk about results and next steps, not buzzwords. Every message points to something the reader can do.

"Here is what is working, and what to do next."

Warm

We sound like a partner who is on your side, confident without talking down or showing off.

"Tell us what is holding you back. We will take it from there."

Headline examples

Less guesswork. More customers.

One partner for the whole journey.

Your business, working smarter.

Know what works. Do more of it.

Words we like

customers · results · simple · together · clear numbers · next step

Words we avoid

synergy · cutting-edge · world-class · end-to-end solutions · disruptive

Calls to action

Buttons are Navy on Amber. Keep the wording short and specific.
